Sub: Tuberculosis-Staff working in Tuberculosis Institutions Grant of special pay .

Under rule 3 of the rules issued with G.O.No.2375 P.H. dated 6-7-39 every employee (excluding the menial staff) in the X-Ray and Radium departments of Government medical institutions is compelled to take at least one month's leave each year. In G.O.No.1434 P.H. dated 3-4-41 the Government ordered that in the case of permanent Government servants who are employed in these departments and who are governed by the Madras Leave Rules, 1933, only fifteen days out of the one month's compulsory leave taken each year should be debited to their account and that the balance of 15 days' leave should be accumulated according to rules. The Surgeon-General recommends that the concessions made in the G.O's referred to above in respect of the staff employed in the X-Ray and Radium departments may be made applicable to the medical officers employed in Tuberculosis institutions and who have to attend to X-Ray work. The proposal may be supported in this department. Finance may see for remarks.

2. The Surgeon-General also recommends the grant of a special pay to the staff employed in the Tuberculosis Sanatoria and Hospitals at the rates specified in his letter at page 1 c.f. The extra cost to Government on account of the proposal is Rs.25,260 per annum. With reference to another proposal of the Surgeon-General (dealt with in the Local Fund) for the grant of special pay for Ward Sister and Nurses working in operation theatres, this Department noted that the Government were against the payment of special pays Class I and that there was no sufficient justification for the grant of special pay to the Ward Sisters and Nurses. Finance agreed with Education and Public Health. Hon'ble Minister (Public Health) however ordered that the proposal might be considered along with the question of grant of special pays to Ward Sisters and Nurses employed in the Tuberculosis institutions after obtaining the remarks of the Surgeon-General on the latter question. In his letter on pages 1-2 c.f. the Surgeon-General has recommended the grant of special pays to the various staff employed in Government Tuberculosis institutions. Ward Sisters and Nurses are also among this staff and the Surgeon-General has recommended the grant of special pays to them at the rates of Rs.20/- and Rs.15/- per mensem respectively. As the Surgeon-General's recommendation in respect of Ward Sisters and Nurses has to be considered along with the proposals for the grant of special pays in respect of the staff employed in the Tuberculosis institutions (excluding Ward Sisters and Nurses) may be considered. The Surgeon-General's ~~orders~~ proposals for special pay for these staff may be supported. Subject to orders, the case may be sent to Finance U.O. for remarks.

T.G.M./11-11-1948.

Finance (C.S.R.) Department.

The proposal at A on p.1 above may be agreed to Education and Public Health may be requested to send relevant extracts for amending the Madras Leave Rules. Hon'ble Minister (Finance) may see.

2. The proposal to grant special pay to the staff employed in the Tuberculosis Sanatoria and Hospitals needs detailed examination especially in view of the present policy of the Government against the grant of class I special pays to gazetted officers. Education and Public Health may be requested to say whether the staff in the X-Ray and Radium departments are now allowed any special pay and if

p.t.o.

and if so the rates of special pay allowed.

Work on Tubercular patients cannot be put on a level with that in the X-ray and radium departments, and the same rates of special pay should not be granted, but some lower rates, if at all.

Work on tuberculosis is not so very different from ordinary medical work and Finance may advise that no new special pay need be created for those engaged in it. It has not been granted before. In fact I think it has been considered before the rejected (sometime about 1941).

Hon'ble Premier has also minuted generally against recommending any increase of pay at the present juncture.

Finance therefore advise that the proposal be negatived.

C.C.18/11/48.

Finance U.O.No.97919 CSR-1
dated 18-11-1948.

Education and P.H.
(G2) Department.

Finance agree to the grant of leave concession to medical officers employed in Tuberculosis institutions as recommended by the Surgeon-General. Relevant extracts from the c.f. and n.f. will be sent to them for amending the Madras Leave Rules.

2. In the circumstances stated by Finance Deputy Secretary his note above, this Department need not perhaps press the proposal for the grant of special pay the staff employed in Tuberculosis institutions.

3. The file may be circulated to Hon'ble Minister (Public Health) and Hon'ble Minister (Finance).

B.
Need not press the proposal.

Sub: Leave - Medical Officers employed in the Government Tuberculosis institutions - Certain concessions - Grant of -
Ref: G.O.No.139 Public Health dated 18-1-1949.

The Government direct that every Medical Officer employed in a permanent, temporary or officiating capacity, either in a Government Tuberculosis Institution or Sanatorium shall be compelled to take at least one month's leave each year out of the leave at his credit to recoup his health even when it is apparently good. In the case of a permanent Medical Officer, who is governed by the Madras Leave Rules, 1933, only fifteen days out of the one month's compulsory leave taken every year should be debited to his leave account, the remaining fifteen day's leave being accumulated in accordance with the rules. Necessary amendments to the relevant Leave Rules will be issued separately in the Finance Department.
